MotorScrubber SHOCK - Battery Scrubbing Machine & Wand - Excludes Battery Pack

Variant code: 16-MSSHOCKHH

MotorScrubber SHOCK Battery Scrubbing Machine & Wand is an innovative **low-profile oscillating floor cleaning machine** designed to deliver exceptional deep-cleaning performance in areas conventional scrubbers cannot reach. Recognised as the world's lowest-profile oscillating floor cleaning machine, SHOCK effortlessly cleans **edges, skirting boards, stairs, risers, underneath obstacles and other difficult-to-access areas**. This version is supplied **without the battery pack**, making it ideal for users who already own a compatible MotorScrubber GEN3 battery system.

Powered by a high-performance **5,000rpm digital motor**, SHOCK delivers an impressive cleaning action of up to **83 oscillations per second**, effectively removing deeply ingrained dirt from smooth and lightly textured hard floors. Patented features including the **MAGPlate magnetic pad holder**, quick-change weight kit and a **90° pivoting head** allow seamless transitions between floors, stairs and vertical risers. The removable weight kit also enables a lightweight mode for improved manoeuvrability during stair cleaning.

Built with corrosion-proof components and engineered for professional daily use, the MotorScrubber SHOCK offers outstanding durability, versatility and ergonomic operation. Compatible with the GEN3 Battery Backpack System (sold separately), it is designed to provide professional cleaners with the ultimate detail-cleaning solution across a wide variety of commercial floor surfaces.

Product Features

- World's lowest-profile oscillating floor cleaning machine
- Supplied with machine and wand – battery pack not included
- High-performance 5,000rpm digital motor
- Up to 83 oscillations (scrubs) per second

lightweight mode
- 90° pivoting head for instant floor-to-riser cleaning
- Corrosion-proof construction with patented professional design

Product Benefits

- **Provides outstanding deep cleaning on smooth and lightly textured floors**
- **Cleans edges, stairs, risers and beneath obstacles with ease**
- **Oscillating action removes deeply embedded dirt more effectively than conventional scrubbing**
- Lightweight mode improves manoeuvrability for stair cleaning
- Magnetic pad system enables rapid accessory changes
- Durable corrosion-proof construction withstands demanding commercial use
- Compatible with the ergonomic MotorScrubber GEN3 battery backpack system
- Ideal body-only option for existing MotorScrubber battery users

Technical Characteristics

- Product Type: Battery Oscillating Floor Scrubbing Machine
- Power Source: MotorScrubber GEN3 Battery System (Not Included)
- Motor: 5,000rpm Digital Motor
- Cleaning Action: Up to 83 Oscillations per Second
- Pad System: MAGPlate™ Magnetic Pad Holder
- Head Movement: 90° Pivoting Head
- Weight System: Removable Quick-Change Weight Kit
- Construction: Corrosion-Proof Components
- Included: SHOCK Machine & Wand
- Excluded: Battery Pack & Charger

Applications

The **MotorScrubber SHOCK Battery Scrubbing Machine** is ideal for **commercial cleaning contractors, healthcare facilities, schools, hotels, leisure centres, food production sites, transport operators and facilities management teams**. Designed for professional detail cleaning, it delivers exceptional results on **Altro and safety flooring, carpet pre-treatment, concrete, epoxy,**
