

MotorScrubber SHOCK Battery Scrubbing Machine & Wand – Excludes Battery Pack

Variant code: 16-MSSHOCKHH

SHOCK from MotorScrubber is the lowest profile oscillating floor cleaning machine in the world. It has been meticulously designed to deliver a deep clean across the floor including edges, baseboards, stairs, risers, below obstacles and more.

Oscillation is the most effective way to achieve a deep clean on smooth and lightly textured hard floors. With the oscillation targeting fine dirt and debris, which is often deeply ingrained in floors.

Lightweight mode can be activated by removing the weight kit to maximise manoeuvrability when cleaning stairs. Its centrally positioned pivot allows you to apply even pressure, even on a vertical surface.

?Packed with patented features:

- The most user-friendly machine of its kind.
- MAGPlate magnetic pad holder system
- Quick-change weight kit
- Ergonomic GEN3 battery backpack system with added back support
- 5000rpm digital motor delivering a cleaning performance of up to x83 scrubs per second.
- Transition from stair to riser instantly, thanks to a 90-degree pivoting head
- All components are corrosion proof, brutally tested and expertly assembled to provide you with the ultimate detail cleaning machine.

Suitable for many types of floor including Altro/safety, carpet, concrete, epoxy, hardwood, laminate, marble, metal, stone, terrazzo, tile & grout and vinyl/LVT
