Nilfisk Aero Filter Bag - Pack of 5

Variant code: 16-107419590

Nilfisk Aero Fleece Filter Bags are **high-performance replacement filter bags** designed for use with **Nilfisk Aero vacuum cleaners**. Manufactured from durable fleece filtration material, these premium bags provide excellent dust retention, improved airflow and enhanced vacuum performance compared to traditional paper bags.

The advanced fleece construction effectively captures fine dust, dirt and debris while maintaining strong suction throughout the life of the bag. The robust material resists tearing and bursting, even when handling demanding cleaning applications, making these bags ideal for professional and commercial environments.

Designed to support the performance and longevity of Nilfisk Aero vacuum cleaners, these genuine-style replacement bags help maintain efficient filtration and hygienic waste disposal. Supplied as a convenient **pack of 5**, they provide a practical solution for routine machine maintenance.

Product Features

- Fleece filter bags for Nilfisk Aero vacuum cleaners
- Advanced fleece filtration material
- Excellent dust and debris retention
- Maintains strong airflow and suction performance
- Tear-resistant durable construction
- Supports efficient filtration performance
- Easy to install and replace
- Supplied as a pack of 5

Product Benefits

- **Provides superior filtration compared to standard paper bags**
- **Maintains consistent suction and airflow**
- **Offers durable tear-resistant performance**
- Supports cleaner indoor air quality
- Provides hygienic dust collection and disposal
