Numatic Floor Tool For Quick Vacuum Cleaner

Variant code: 16-914744

Numatic Quick Floor Tool is a **genuine vacuum cleaner floor nozzle** designed specifically for use with the **Numatic Quick Battery Powered Stick Vacuum Cleaner**. Engineered to maximise cleaning performance across a variety of floor surfaces, this high-quality accessory delivers excellent dust, dirt and debris pick-up while maintaining the lightweight manoeuvrability that makes the Numatic Quick such a versatile cleaning solution.

Designed for seamless compatibility with the Numatic Quick range, the floor tool optimises airflow and suction efficiency to provide effective cleaning on both hard floors and low-pile carpets. Its carefully engineered design helps direct suction precisely where it is needed, improving debris collection and helping users achieve cleaner floors with fewer passes.

The lightweight construction allows for effortless movement around furniture, fixtures and confined spaces, making it ideal for routine cleaning tasks in busy commercial and domestic environments. Built to Numatic's renowned quality standards, the floor tool is manufactured from durable materials designed to withstand frequent use while maintaining reliable performance over time.

Easy to attach and remove, this genuine Numatic accessory provides a perfect fit and dependable operation, ensuring your Quick Vacuum Cleaner continues to perform at its best. Whether replacing a worn floor head or keeping a spare accessory available, the Numatic Quick Floor Tool helps maintain optimum cleaning efficiency and floor care performance.
