Numatic Quick Extension Handle

Variant code: 16-915353

Numatic Quick Extension Handle is a **genuine vacuum cleaner wand** designed specifically for use with the **Numatic Quick Battery Powered Stick Vacuum Cleaner**. Engineered to provide comfortable reach and improved manoeuvrability, this extension handle forms an essential part of the Quick cleaning system, allowing users to clean floors, edges and hard-to-reach areas efficiently and comfortably.

Designed for seamless compatibility with the Numatic Quick range, the extension handle connects securely between the vacuum unit and cleaning attachments, creating an ergonomic cleaning solution that reduces bending and operator fatigue. Its lightweight yet durable construction helps maintain the portability and ease of use that the Numatic Quick is known for, while supporting effective cleaning performance across a variety of environments.

The extension handle also increases accessibility when cleaning under furniture, around fixtures and along floor edges, helping users achieve a more thorough clean with less effort. Whether replacing a damaged wand or keeping a spare component available, this genuine Numatic accessory ensures optimum compatibility and reliable performance.

Manufactured to Numatic's high-quality standards, the Quick Extension Handle is built to withstand regular use in both commercial and domestic cleaning applications while maintaining a secure fit and dependable operation.
