Numatic Quick Stick Trolley Bracket

Variant code: 14-916341

Numatic Quick Stick Trolley Bracket: Mobile Cleaning Efficiency

The **Numatic Quick Trolley Bracket** is a robust, professional-grade accessory designed to securely mount the Numatic Quick or Henry Quick cordless stick vacuums onto your existing janitorial cart. Whether you are managing a healthcare facility, a hotel, or a corporate office, this bracket streamlines your workflow by keeping your primary floor-care tool safely attached to your mobile workstation.

Key Features & Benefits

- **Universal Compatibility:** Seamlessly fits the Numatic **ECO-Matic, SERVO-Matic, PRO-Matic, and NuKeeper** trolley ranges.
- **Robust & Durable Design:** Built with high-impact materials to withstand the rigours of commercial cleaning and frequent transport.
- **Space-Saving Integration:** Mounts the vacuum vertically, freeing up shelf space on the trolley for chemicals, cloths, and mop heads.
- **Integrated Wall/Door Protection:** Features non-marking buffers to prevent damage to surfaces when navigating tight corridors or doorways.
- **Quick-Release Accessibility:** Designed for speed, allowing cleaners to "grab and go" for spot cleans and return the unit to the trolley effortlessly.

Why Choose the Numatic Quick Trolley Mount?

In professional facilities management, **productivity is everything**. By integrating your Numatic Quick Stick into your janitorial trolley, you eliminate unnecessary trips back to the storage cupboard.

Pro Tip for Facility Managers: Using the trolley bracket ensures the vacuum is stored at an ergonomic height, reducing the risk of strain and improving the overall safety and organisation of your cleaning fleet.
