Numatic SM5 Cleaning Trolley with 440nx Transport Bracket

Variant code: 16-917016

Numatic SM5 Cleaning Trolley with 244NX Transport Bracket is a **professional cleaning trolley** designed to improve productivity and organisation while providing convenient transportation for the **Numatic 244NX compact scrubber dryer**. Featuring a **top storage shelf, integrated drawer, waste collection bag and dedicated rear transport bracket**, the SM5 offers a complete mobile cleaning solution for commercial environments.

Engineered for efficient housekeeping and facilities management, the trolley allows cleaning supplies, consumables and waste to be organised in one convenient unit while securely carrying the 244NX scrubber dryer across site. The integrated rear bracket holds the machine safely during transport, reducing operator effort and making it easy to move between cleaning locations without the need for separate handling.

Manufactured from Numatic's durable Structofoam construction, the SM5 is built to withstand the demands of daily commercial use. Smooth-rolling castors provide excellent manoeuvrability, while the modular design offers practical storage and efficient workflow for professional cleaning teams.

Ideal for routine cleaning operations, the Numatic SM5 Cleaning Trolley with 244NX Transport Bracket helps maximise productivity by combining housekeeping, waste collection and machine transport into a single mobile workstation.

Product Features

- **Professional cleaning trolley with integrated 244NX transport bracket**
- Dedicated rear bracket securely holds the Numatic 244NX scrubber dryer
- Top storage shelf for cleaning supplies
- Integrated storage drawer for consumables and accessories
- Large waste collection bag
- Durable Structofoam construction
- Smooth-rolling castors for excellent manoeuvrability
- Modular professional cleaning trolley
