Numatic TT1840G - Mains Powered Scrubber Dryer

Variant code: 16-TT1840G

Numatic TT1840G is a compact yet powerful **mains powered scrubber dryer** designed to deliver professional cleaning performance in smaller and congested environments. Combining a generous **18-litre tank capacity** with a compact **400mm scrubbing width**, the TT1840G provides the cleaning capability of larger machines whilst maintaining exceptional manoeuvrability in confined spaces.

Designed for daily floor maintenance, the TT1840G washes, scrubs and dries floors in a single operation, leaving surfaces clean, dry and safe for immediate use. Its compact footprint makes it ideal for shops, offices, banks, cafeterias, showrooms and other environments where larger scrubber dryers would be impractical. The machine features Numatic's durable Polyform tank construction and incorporates a convenient tilt-back design that allows single-handed brush or pad changes, helping reduce maintenance time and improve operator efficiency.

User-friendly colour-coded controls and a soft-touch dashboard simplify operation, whilst access to the **Nu-Assist App** provides operators with instant support, maintenance guidance and troubleshooting assistance directly from their mobile device. Supplied complete with brush, the TT1840G offers a practical and reliable floor cleaning solution for facilities requiring professional results in compact spaces.

Product Features

- **400mm scrubbing width** for compact area cleaning
- **18L tank capacity** delivers extended cleaning performance
- Washes, scrubs and dries floors in a single pass
- Compact design for confined and congested environments
- Colour-coded controls and soft-touch dashboard for simple operation
- Tilt-back tank design allows easy brush or pad changes
- Compatible with the **Nu-Assist support app**

Product Benefits

- Provides larger machine performance in a compact format
- Improves productivity in smaller commercial environments
- Leaves floors clean, dry and safe with minimal downtime
- Reduces operator effort through intuitive controls and design
- Simplifies routine maintenance and consumable changes
- Supports consistent professional cleaning standards
- Offers convenient access to operational support and guidance

Technical Characteristics

- Professional **mains powered scrubber dryer**
- **400mm cleaning width**
- **18 litre solution and recovery tank capacity**
- Polyform tank construction for durability and longevity
- Single-handed brush or pad changing capability
- Supplied complete with brush
- Designed for daily maintenance cleaning of hard floors

Applications

Numatic TT1840G is ideal for retail stores, offices, banks, schools, cafés, showrooms, healthcare environments and other facilities where space is limited but professional floor cleaning performance is required. Its compact design allows operators to clean around fixtures, furniture and narrow walkways with ease, making it particularly effective in congested environments where larger scrubber dryers cannot operate efficiently. The machine delivers reliable daily floor maintenance while helping maintain safe, clean and hygienic hard floor surfaces.
