

Numatic – UK Type Charging Lead

Variant code: 16-220386

Numatic UK Charging Lead is a genuine replacement **mains charging cable** designed for compatible **Numatic battery-powered cleaning equipment**. Featuring a standard UK plug configuration, this charging lead provides a reliable connection between the mains power supply and your Numatic charger or machine, ensuring safe and efficient battery charging.

Manufactured to Numatic's high-quality standards, the charging lead is built for durability and dependable everyday performance in demanding commercial environments. Its robust construction provides a secure electrical connection while supporting consistent charging to help maximise battery life and machine availability.

Ideal for replacing damaged, worn or misplaced charging leads, this genuine Numatic accessory is easy to connect and helps minimise equipment downtime. It is an essential replacement component for maintaining the performance and reliability of compatible Numatic battery-operated machines.

Product Features

- Genuine Numatic UK charging lead
- Standard UK mains plug connection
- Designed for compatible Numatic battery-powered equipment
- Provides reliable and efficient battery charging
- Heavy-duty commercial-grade construction
- Secure electrical connection
- Easy plug-and-play installation
- Ideal replacement charging cable

Product Benefits

- **Restores reliable charging performance**
- **Helps minimise equipment downtime**
- **Supports safe and efficient battery charging**
- Durable construction withstands everyday commercial use
- Easy to connect and replace
- Maintains dependable machine

- availability
- Suitable for routine maintenance and replacement
- Genuine Numatic accessory ensures reliable compatibility

Technical Characteristics

- Product Type: Charging Lead
- Plug Type: UK Mains Plug
- Compatibility: Compatible Numatic Battery Chargers and Battery-Powered Cleaning Machines
- Application: Battery Charging
- Connection Type: Mains Power Lead
- Installation: Plug-and-Play
- Construction: Heavy-Duty Flexible Cable
- Genuine Numatic Replacement Accessory

Applications

The **Numatic UK Charging Lead** is ideal for **commercial cleaning contractors, schools, healthcare facilities, hotels, offices, retail premises, warehouses and facilities management teams** using **compatible Numatic battery-powered cleaning machines and chargers**. Designed to provide a dependable mains power connection for battery charging, it helps keep cleaning equipment fully charged, operational and ready for daily professional use.
