Clinical Waste Sacks - Medium Duty - 20L/5Kg - Case of 500 - Orange

Variant code: 18-CWMD2

Clinical Waste Sacks are durable **medium duty 20 litre clinical waste disposal bags** designed to provide safe, hygienic and compliant waste management for healthcare and professional environments. Manufactured from strong polyethylene material, these orange clinical waste sacks offer dependable containment for non-sharp clinical waste while supporting infection control and waste segregation procedures.

Featuring a practical **20 litre capacity** and a dependable **5kg load rating**, these medium-duty waste sacks are engineered to resist tearing and punctures during everyday handling and disposal. The highly visible **orange colour** ensures easy identification of clinical waste streams, helping facilities comply with healthcare waste regulations and maintain safe waste segregation practices. Their durable construction makes them suitable for handling soft clinical waste including dressings, wipes, gloves, swabs and contaminated disposable materials.

Supplied in a cost-effective **case of 500 sacks**, these clinical waste bags provide a reliable and economical waste management solution for hospitals, laboratories, clinics and healthcare facilities requiring dependable everyday clinical waste disposal consumables.

Product Features

- **Medium duty clinical waste sacks**
- **20 litre capacity**
- **5kg load rating**
- Strong tear and puncture-resistant polyethylene construction
- Highly visible **orange colour** for waste segregation
- Suitable for soft non-sharp clinical waste
- Designed for hygienic waste containment
- **Case quantity: 500 sacks**

Product Benefits

- Supports safe and compliant clinical waste disposal

Tel: 01626 355177

- Helps reduce risk of contamination and cross-infection
- Improves waste segregation and infection control procedures
- Provides reliable containment for everyday clinical waste
- Supports hygienic workplace and healthcare environments
- Offers economical bulk supply for high-use facilities
- Helps maintain compliance with healthcare waste regulations

Technical Characteristics

- **20L medium duty clinical waste sacks**
- **5kg maximum load capacity**
- Orange polyethylene construction
- Suitable for soft non-sharp clinical waste applications
- Designed for healthcare and medical environments
- Strong and durable medium-duty design
- **Case quantity: 500 sacks**

Applications

Clinical Waste Sacks are ideal for hospitals, GP surgeries, dental practices, veterinary clinics, laboratories, nursing homes, tattoo studios and healthcare environments requiring safe and compliant clinical waste disposal solutions. Their medium-duty construction and colour-coded orange design make them particularly suitable for infection control and regulated medical waste management systems.
