P-Wave NHS Trough Urinal Screen - Pack of 6 - Mango

Variant code: 05-105258M

NHS Trough Urinal Screen is a professional fragranced urinal screen designed to provide **long-lasting odour control, splash reduction and debris protection** in busy commercial washrooms. Featuring a vibrant **Mango fragrance**, it releases a sweet, fruity and tropical scent that helps maintain a fresh and welcoming environment. Specifically developed for **trough-style urinals**, the screen combines practical washroom maintenance features with an NHS health-awareness message encouraging users to recognise and report important urinary symptoms.

Featuring **hundreds of flexible anti-splash bristles**, the screen helps minimise urine splashback onto surrounding floors, walls and clothing. Its innovative **double-sided design** allows installation either way up, while the integrated debris-catching structure helps prevent unwanted materials from entering urinal drainage channels. Multiple screens can be positioned over drainage outlets or **linked together to cover longer trough urinals**. Infused with **beneficial bacteria for drain deodorisation**, each screen delivers a powerful Mango fragrance for **up to 30 days**, helping manage unpleasant washroom odours between routine cleaning visits.

Manufactured from **recyclable EVA material containing up to 15% recycled content**, the screen incorporates an **EcoPure additive** designed to accelerate biodegradation under suitable landfill conditions. Its **low-VOC fragrance formulation** provides an alternative to frequent aerosol spraying, while the flexible construction makes installation and replacement straightforward. Compatible with **waterless urinals and urinal bio blocks**, the screens can be used across a variety of commercial washroom installations. Supplied in a **pack of 6 Mango trough urinal screens**, they provide a practical solution for maintaining freshness and reducing splashback in high-traffic facilities.

Product Features

- **Tropical Mango fragrance** provides a sweet, fruity and refreshing washroom scent

ongoing drain odour management
- **NHS awareness messaging** provides an opportunity to communicate important health information
- **Waterless urinal compatibility** supports a wider range of washroom installations
- **Flexible construction** makes handling and replacement convenient
- **Low-VOC fragrance** supports a non-aerosol approach to washroom freshening
- **Recyclable EVA material** supports responsible disposal where suitable facilities exist
- **Recycled material content** helps reduce reliance on virgin plastic
- **Pack of 6** provides a practical supply for high-traffic washroom maintenance

Technical Characteristics

- **Product Range:** NHS Trough Urinal Screen
- **Product Type:** Fragranced Trough Urinal Screen
- **Fragrance:** Mango
- **Fragrance Profile:** Sweet, Fruity and Tropical
- **Primary Function:** Urinal Deodorising, Splash Reduction and Debris Protection
- **Urinal Type:** Trough Urinals
- **Screen Design:** Flexible Bristled Screen
- **Anti-Splash Technology:** Double-Sided Bristle Design
- **Installation Orientation:** Either Side Up
- **Linkable Design:** Yes
- **Fragrance Duration:** Up to 30 Days
- **Deodorising Technology:** Fragrance and Beneficial Bacteria
- **Fragrance VOC Characteristics:** Low VOC
- **Material:** EVA
- **Material Properties:** Flexible
- **Recycled Content:** Up to 15%
- **Recyclability:** Recyclable Where Suitable Facilities Exist
- **Biodegradation Additive:** EcoPure
- **Biodegradation Characteristics:** Accelerated Biodegradation Under Suitable Landfill Conditions
- **Debris Protection:** Helps Retain Larger Debris Above Drainage Outlets
- **Waterless Urinal Compatibility:** Yes
- **Urinal Bio Block Compatibility:** Yes
- **Health-Awareness Messaging:** NHS Urinary Symptom Awareness
