P-Wave OurFresh-e Air Freshener - Plug In Dispenser - White

Variant code: 05-105249W

P-Wave OurFresh-e Plug-In Air Freshener Dispenser is a **professional electric air freshening system** designed to deliver consistent fragrance throughout larger indoor spaces. Featuring a **compact white design**, it provides a discreet and practical solution for offices, washrooms, reception areas, care homes and hospitality environments. Its fan-assisted fragrance distribution helps maintain a fresh and welcoming atmosphere for staff, customers and visitors.

Equipped with a **high-speed fan and charcoal filter**, the dispenser draws in surrounding air while distributing fragrance from compatible P-Wave OurFresh-e refills. Designed to freshen areas of up to **50m²**, the system offers **three adjustable fragrance intensity settings – high, medium and low**, allowing users to tailor the fragrance output to their surroundings. A convenient **digital display** shows the selected setting and indicates when the fragrance refill requires replacement. Compatible refills provide up to **30 days of fragrance** and are available in Cotton Blossom, Coconut & Vanilla and Summer Sunshine.

Designed for **quick, tool-free installation**, the dispenser features a **rotating three-pin plug** that can be positioned horizontally or vertically to suit the electrical socket. Simply insert a compatible fragrance refill, connect the unit to a suitable power outlet and select the preferred intensity setting. The dispenser operates directly from mains electricity, requiring **no batteries, screws or adhesive mounting accessories**. Its low-power operation and reusable construction make it a convenient choice for ongoing air care maintenance. **Fragrance refills are sold separately.**

Product Features

- **Professional plug-in air freshener dispenser** for continuous indoor fragrance delivery
- **Clean white finish** provides a discreet and professional appearance
