Pacvac 32mm Combination Floor Tool for Velo - 260mm

Variant code: 16-FLT016

Pacvac Combination Floor Tool is a **versatile multi-surface vacuum floor head** designed for efficient cleaning of both carpeted and hard floor surfaces. Manufactured as a genuine Pacvac accessory, this combination floor tool delivers smooth transitions between flooring types, making it an ideal everyday cleaning attachment for commercial and domestic vacuuming applications.

Featuring a **260mm cleaning width** and a standard **32mm connection**, the floor tool is compatible with the Pacvac Velo vacuum cleaner and other vacuum systems using a 32mm wand. Its practical design allows operators to effectively clean carpets, carpet tiles, vinyl, timber, laminate and hard flooring without changing attachments, improving productivity and convenience.

The lightweight construction provides excellent manoeuvrability around furniture, fixtures and obstacles, while the wide cleaning path helps maximise coverage and reduce cleaning time. Designed for regular professional use, the floor tool delivers reliable performance and durability in demanding cleaning environments.

As a genuine Pacvac approved spare part, the Combination Floor Tool ensures perfect compatibility, dependable operation and consistent cleaning results across a variety of floor surfaces.
