Pacvac Replacement Hepa Cone Filter: For Velo

Variant code: 16-FIL027

Pacvac Replacement HEPA Cone Filter is a genuine high-efficiency replacement filter designed specifically for the **Pacvac Velo Hypercone backpack vacuum cleaner**. Engineered to provide exceptional dust filtration while maintaining optimum airflow, this HEPA cone filter helps preserve powerful suction performance and improves exhaust air quality by capturing fine dust and airborne particles.

Designed to work seamlessly with Pacvac's innovative **Hypercone filtration system**, the cone-shaped filter promotes consistent airflow throughout the cleaning process, helping maintain peak vacuum performance as the dust bag fills. Its high-efficiency HEPA filtration captures fine particles before they reach the motor, protecting internal components and extending the service life of the machine.

Easy to install and replace, this genuine Pacvac Hypercone filter is an essential maintenance component for keeping your Velo backpack vacuum operating at maximum efficiency. Regular filter replacement helps maintain professional cleaning performance and supports healthier indoor environments.

Product Features

- Genuine Pacvac HEPA Hypercone replacement cone filter
- Designed specifically for the Pacvac Velo backpack vacuum cleaner
- High-efficiency HEPA filtration
- Compatible with the Hypercone filtration system
- Maintains optimum airflow and suction performance
- Helps protect the vacuum motor from fine dust
- Easy to install and replace
- Durable commercial-grade filter construction

Product Benefits

- **Captures fine dust and airborne particles for cleaner exhaust air**

- **Maintains strong suction and consistent airflow**
- **Protects the vacuum motor and extends machine life**
- Supports optimum performance of the Hypercone filtration system
- Improves indoor air quality during vacuuming
- Quick replacement minimises maintenance downtime
- Ideal for routine commercial vacuum servicing
- Genuine Pacvac quality ensures perfect compatibility

Technical Characteristics

- Product Type: HEPA Cone Filter
- Compatibility: Pacvac Velo Hypercone Backpack Vacuum Cleaner
- Filtration Type: High-Efficiency HEPA Filter
- Design: Hypercone Cone Filter
- Application: Dust & Motor Protection Filtration
- Installation: Direct Replacement
- Suitable for Commercial Cleaning Applications
- Genuine Pacvac Replacement Accessory

Applications

The **Pacvac Replacement HEPA Hypercone Cone Filter** is ideal for **commercial cleaning contractors, schools, healthcare facilities, offices, hotels, retail premises and facilities management teams** using the **Pacvac Velo Hypercone backpack vacuum cleaner**. Designed to capture fine dust and airborne particles while maintaining excellent airflow, it helps deliver professional cleaning performance, improved indoor air quality and long-term vacuum reliability.
