Plug In Air Freshner Unit (Requires 17ml Refills)

Variant code: 06-294124

The **Plug-In Air Freshener Unit** is a convenient electric fragrance dispenser designed to freshen indoor spaces using compatible **17ml air freshener refills**. Ideal for everyday home and workplace use, it provides a practical alternative to manually operated air freshener sprays.

Designed to plug into a suitable electrical socket, the unit works with a compatible **17ml fragrance refill** to release scent into the surrounding area. Its compact format makes it a practical option for rooms where a discreet air freshening solution is preferred.

Suitable for use in **homes, offices, reception areas and other indoor environments**, the unit allows users to select compatible fragrance refills according to their preferences. The **17ml refill is required for operation** and should be purchased separately unless specifically included in the supplied pack.

Product Features

- **Electric plug-in air freshener unit** designed for indoor fragrance dispensing.
- **17ml refill compatibility** for use with the appropriate fragrance refills.
- **Convenient plug-in operation** provides an alternative to manual air freshening sprays.
- **Compact design** suitable for use in a variety of indoor spaces.
- **Replaceable fragrance refills** allow continued use of the dispensing unit.
- **Versatile indoor applications** suitable for domestic and workplace environments.
- **Reusable dispenser unit** designed to accommodate replacement fragrance refills.

Product Benefits

- **Convenient air freshening** helps maintain a pleasant indoor atmosphere.
- **Simple operation** uses a compatible electrical socket without manual spraying.

- **Fragrance:** Dependent on Refill Selected
- **Pack Quantity:** 1 Unit
- **Refill Inclusion:** Not Confirmed
- **Fragrance Intensity Adjustment:** Not Confirmed
- **Electrical Rating:** Refer to Product Label
- **Intended Use:** Domestic and Indoor Workplace Air Freshening

Applications

Area of Use: Suitable for **living rooms, bedrooms, hallways, offices, reception areas and other indoor spaces** where a pleasant fragrance is desired. Use only in locations permitted by the product's operating instructions.

How to Use: Insert a **compatible 17ml air freshener refill** into the plug-in unit according to the manufacturer's instructions. Connect the assembled unit to a suitable electrical socket, ensuring it remains in the required upright position. Disconnect the unit from the power supply before replacing the refill.

Application Considerations: Use only the correct **17ml fragrance refills** specified for the unit. Refill capacity alone does not guarantee compatibility with every plug-in air freshener system. Follow the product instructions regarding installation, positioning and operating duration. Avoid placing the unit near curtains, fabrics or heat-sensitive materials.

Safety: Follow the manufacturer's electrical safety
