

Portable Centrefeed Dispenser – Black Plastic

Variant code: 28-100

The **Portable Centrefeed Wiper Dispenser** is a practical dispensing solution designed to hold and dispense **centrefeed paper wiper rolls** in professional cleaning and workplace environments. Manufactured from **black plastic**, this portable dispenser accommodates **one wiper roll**, providing convenient access to paper for everyday wiping, cleaning and spill management tasks.

Its **portable design** allows cleaning operatives and maintenance personnel to position the dispenser wherever paper wipers are required. The **centrefeed dispensing system** enables paper to be drawn from the centre of a compatible roll, allowing users to take the required amount without handling the entire roll. This makes it a convenient option for cleaning stations, maintenance areas and other locations where wiping materials need to be readily accessible.

Designed for **commercial, industrial and general workplace use**, the dispenser provides a dedicated holder for centrefeed wiping paper, helping keep supplies organised and accessible. Its **single-roll capacity** makes it suitable for individual workstations and mobile cleaning operations, while the **black plastic construction** offers a practical finish for regular use. The dispenser is intended for use with compatible centrefeed wiper rolls, which are supplied separately.

Product Features

- **Portable centrefeed wiper dispenser** for professional cleaning applications
- **Black plastic construction** for everyday workplace use
- **Single-roll capacity** accommodates one compatible centrefeed wiper roll
- **Centrefeed dispensing** allows paper to be drawn from the centre of the roll
- Designed to provide **convenient access to wiping paper**
