Prochem CR2 Multi-Surface Cleaning Machine

Variant code: 16-RC2700

Prochem CR2 Multi-Surface Cleaning Machine is a professional **touch-free cleaning system** designed for deep cleaning hard floors, tiled walls, washrooms, carpets and upholstery. Combining the power of a **500 psi pressure washer** with a high-performance **3-stage vacuum recovery system**, the CR2 effectively loosens and removes dirt, grime and contaminants from porous and hard-to-reach surfaces without the need for aggressive manual scrubbing.

Designed for maximum versatility, the CR2 features a built-in **automatic chemical feed system** for accurate detergent metering during pressure washing, ensuring consistent cleaning results while reducing chemical waste. Its integrated hose and wand caddy system keeps all accessories organised and easily transported between cleaning locations. Supplied complete with hoses, floor squeegee wand, pressure gun, quick drier tool and gulper tool, the machine is ready for professional cleaning straight out of the box. Optional **Heat 'n' Run** heating and carpet and upholstery cleaning accessories further expand the machine into a complete multi-surface restoration system.

Built for demanding commercial environments, the Prochem CR2 provides fast, hygienic and highly effective cleaning across a wide range of applications. Every machine also includes a **free operator training voucher**, helping users maximise performance and achieve professional cleaning results from day one.

Product Features

- Professional touch-free multi-surface cleaning system
- Suitable for hard floors, tiled walls, carpets and upholstery
- High-performance 500 psi piston pump
- Powerful 3-stage vacuum recovery system
- Built-in automatic chemical feed system for accurate detergent metering
- Integrated hose and wand caddy for convenient transport and storage
- Supplied with hoses, floor squeegee
