Raphael Alcohol - Free Hand Sanitiser - Case of 6 x 1L

Variant code: 10-SOSANRA

Raphael Alcohol-Free Hand Sanitiser is a **professional foam hand sanitiser** developed to provide effective hand hygiene without the harsh effects commonly associated with alcohol-based products. Designed for use in high-traffic commercial, healthcare, education and public environments, this advanced formulation delivers reliable antimicrobial protection while helping maintain skin comfort during frequent use.

Featuring a **100% alcohol-free formula**, Raphael Hand Sanitiser is ideal for environments where alcohol-based products may be unsuitable, including schools, childcare facilities, healthcare settings and alcohol-restricted workplaces. The non-flammable formulation provides a safer alternative for storage and everyday use while helping reduce skin dryness and irritation often associated with traditional alcohol sanitisers.

Despite its gentle formulation, the sanitiser is proven to **kill 99.9% of common germs and bacteria**. Powered by **Benzalkonium Chloride**, the active ingredient delivers effective antimicrobial protection with persistent action that helps keep hands hygienically clean between applications. The sanitiser dispenses as a **quick-drying, non-sticky foam**, leaving hands feeling clean, comfortable and residue-free.

Designed for convenience and efficiency, the cartridge system allows **fast and hygienic replacement** while reducing product waste. Supplied in a **case of 6 x 1L cartridges**, it provides a practical solution for organisations requiring reliable hand hygiene products in busy environments.

Product Features

- **Alcohol-free foam hand sanitiser**
- Proven to **kill 99.9% of common germs and bacteria**
- Contains **Benzalkonium Chloride** for effective antimicrobial action

dispenser systems

Product Benefits

- Provides effective hand sanitisation without alcohol
- Helps reduce skin dryness associated with frequent sanitiser use
- Suitable for sensitive skin and alcohol-restricted environments
- Leaves hands feeling clean, fresh and residue-free
- Supports workplace hygiene and infection control programmes
- Economical cartridge system for high-traffic facilities

Technical Characteristics

- Supplied in **1 litre cartridges**
- Case quantity: **6 x 1L**
- Active ingredient: **Benzalkonium Chloride**
- Foam sanitiser formulation
- Compatible with Raphael wall-mounted dispensers
- Non-flammable and alcohol-free composition

Applications

Raphael Alcohol-Free Hand Sanitiser is suitable for **offices, schools, nurseries, healthcare facilities, care homes, retail environments, public buildings and hospitality venues** where effective hand hygiene is essential. Its alcohol-free, skin-friendly formulation makes it particularly suitable for environments with frequent sanitiser use, sensitive skin users and locations where alcohol-based products are restricted. The quick-drying foam and long-lasting antimicrobial protection support effective hygiene management in busy professional settings.
