

Rubbermaid Hygen Straight Extension Handle – 121.9–182.9cm

Variant code: 14-Q755

The **Rubbermaid HYGEN™ Quick-Connect Extension Handle** is a lightweight adjustable cleaning handle designed to make professional cleaning more efficient throughout a facility. Adjustable from **121.9cm to 182.9cm**, the handle provides extended reach while allowing the working length to be adapted to different cleaning tasks and users.

Manufactured from **lightweight aluminium**, the HYGEN™ handle is designed to improve productivity while remaining comfortable to use. Its **one-step Quick-Connect mechanism** allows compatible cleaning tools to be attached and changed quickly, helping to reduce the time required for mop assembly and tool changeovers.

Designed with a **user-friendly grip** for comfortable handling, the aluminium construction is also suitable for use in **MRI rooms**. This makes the HYGEN™ Quick-Connect Extension Handle a versatile choice for professional cleaning across healthcare, education, hospitality and commercial facilities.
