87L Rubbermaid Slim Jim Recycling - 3 Bin Station (General/Mixed/Food)

Variant code: 14-2217670

Streamline Your Recycling with Our Adaptable, Front-of-House Recycling Station

Boost your recycling rates and create a more sustainable environment with our innovative, adaptable recycling solution. Designed for both front-of-house appeal and back-of-house efficiency, this system seamlessly integrates into any commercial space.

Key Features & Benefits:

- **Crystal-Clear, Colour-Coded Signage:** Minimise contamination and maximise recycling with intuitive, colour-coded signage that's easy for both staff and customers to understand at a glance. This promotes proper sorting and improves overall recycling effectiveness.
- **Heavy-Duty Durability:** Constructed from premium, high-quality resin, our recycling station is built to endure the rigours of high-traffic commercial settings, ensuring long-lasting performance and value.
- **Modular Expandability:** Future-proof your waste management strategy! Our modular design allows you to easily add bins for new waste streams as needed, adapting to evolving recycling requirements without costly replacements. This flexible system helps reduce waste and protects your budget.
- **Effortless Liner Changes:** Built-in venting channels make liner removal up to 80% easier, minimising the risk of worker injury and dramatically improving efficiency. This thoughtful design feature saves time and promotes a safer work environment.
- **Quick & Easy, Tool-Free Assembly:** Set up your recycling station in minutes! The simple, click-together components require no tools, making assembly fast and straightforward.

Ideal for: Offices, restaurants, schools, retail spaces, and any business committed to effective recycling.
