Rug Doctor Deep Carpet Cleaner Vacuum Motor - 2kg Replacement Motor

Variant code: 16-51154

Rug Doctor Vacuum Motor is a **genuine replacement vacuum motor** designed specifically for Rug Doctor Deep Carpet Cleaner (DCC) machines. Engineered to restore powerful suction performance, this essential replacement component helps maintain effective water recovery and deep carpet cleaning results in professional and domestic cleaning applications.

The vacuum motor plays a critical role in the extraction process, generating the suction required to remove dirty water, cleaning solution and loosened soil from carpet fibres. Replacing a worn or faulty motor can help restore machine efficiency, improve drying times and ensure consistent cleaning performance.

Manufactured to Rug Doctor specifications, the motor is designed for reliable operation and seamless compatibility with Deep Carpet Cleaner machines. Its robust construction supports long service life and dependable performance in demanding cleaning environments.

Product Features

- **Genuine Rug Doctor replacement vacuum motor**
- Designed for **Deep Carpet Cleaner (DCC) machines**
- Restores vacuum suction performance
- Supports efficient water recovery
- Durable and reliable construction
- Direct replacement component
- Approximate weight: **2kg**

Product Benefits

- **Restores extraction and recovery performance**
- **Helps improve carpet drying times**
- **Maintains optimum cleaning efficiency**
- Ideal replacement for worn or damaged motors
- Extends the service life of the machine
- Genuine compatibility ensures reliable operation

Technical Characteristics

- Product Type: **Replacement Vacuum Motor**
- Machine Compatibility: **Rug Doctor Deep Carpet Cleaner (DCC)**
- Function: Vacuum extraction / water recovery
- Weight: **Approx. 2kg**
- Installation: Direct replacement
- Construction: Heavy-duty motor assembly
- Genuine Rug Doctor spare part

Applications

Rug Doctor Vacuum Motor is ideal for **maintenance, servicing and repair of Rug Doctor Deep Carpet Cleaner machines**. Suitable for restoring suction performance in carpet cleaning applications, it helps ensure effective recovery of cleaning solution and soil, supporting professional cleaning results in **homes, offices, hospitality venues, retail premises and commercial environments**.

Property	Value
Weight (kg)	2
Area of Use	Deep Carpet Cleaner, Carpet Cleaning Machines, Carpet Extraction Equipment.
How to Use	Replace the existing vacuum motor in a compatible Rug Doctor Deep Carpet Cleaner and reconnect all fittings according to the machine's service instructions before operation.
Product Type	Vacuum Motor
