Katrin Hand Sanitiser Gel - 80% Alcohol - Case of 6 x 1L Cartridges

Variant code: 10-32440

Katrin Hand Sanitiser Gel 80% Alcohol is a **professional-grade hand sanitising gel** formulated to deliver fast, effective hand hygiene in environments where infection prevention is essential. Supplied as a **case of 6 x 1-litre cartridges**, this high-performance gel provides rapid antimicrobial action while remaining gentle on the skin, making it ideal for frequent use in healthcare, education, workplaces and public-facing facilities.

Containing **80.8% alcohol**, the gel offers powerful disinfection against a broad spectrum of bacteria and enveloped viruses, including **SARS-CoV-2**. Independently tested to **EN 1500** standards for hygienic hand rubs and listed by **VAH/DGHM**, it provides proven antimicrobial performance to support effective infection control programmes.

Dermatologically tested and approved, the mild formulation is suitable for regular daily use, helping to minimise skin irritation while leaving hands feeling clean, refreshed and non-sticky. The smooth gel spreads easily over the hands and dries quickly without the need for water.

Designed for use with **all Katrin 1,000ml dispensers**, the sealed cartridge system provides hygienic dispensing, controlled dosing and reduced product waste, making it a reliable and economical solution for professional washrooms and hygiene stations.
