

## Katrin Hand Sanitiser Gel – 80% Alcohol – Case of 6 x 1L Cartridges

Variant code: 10-32440

Deliver fast, reliable hand hygiene with Katrin Hand Sanitising Gel 80% Alcohol. Designed for professional environments where effective infection control is essential, this high-performance gel provides rapid antimicrobial action while remaining gentle on the skin. Ideal for healthcare, education, workplaces and public-facing facilities, it supports consistent hygiene standards across every setting.

### Key Features & Benefits

#### High-Efficacy Formula:

Contains 80.8% alcohol for powerful, fast-acting disinfection, helping to eliminate a broad spectrum of bacteria and viruses.

#### Certified Hygiene Standards:

Tested to EN 1500 standards for hygienic hand rubs and listed by VAH/DGHM, providing assurance of proven antimicrobial performance.

#### Effective Against Viruses:

Clinically proven to be effective against enveloped viruses, including SARS-CoV-2, supporting infection control in high-risk environments.

#### Skin-Friendly for Frequent Use:

Dermatologically tested and approved, the mild formulation helps minimise skin irritation, making it suitable for regular daily use.

#### Smooth, Easy Application:

The gel spreads easily across the hands, leaving them feeling clean, refreshed and non-sticky after use.

#### Dispenser Compatible & Convenient:

Designed to fit all Katrin 1,000ml dispensers, ensuring controlled dosing, reduced waste and a clean, professional presentation.

#### Professional Hygiene Solution:

Ideal for use across healthcare settings, schools, offices, and public areas where maintaining high hygiene standards is critical.
