

Sizzly Colour-coded Double Mop Bucket inc Wheels – 2 Roller Squeezers – 15L – Green

Variant code: 14-6415G

The **Sizzly Colour-Coded Double Mop Bucket** is a compact professional **15L mopping system** designed for use across **small to medium-sized areas**. Its double plastic bucket incorporates a **fixed divider** that separates rinsing water from the detergent solution, supporting an organised professional floor-cleaning process.

The system features **two roller squeezers**, with one fixed to the bucket and the other operated using **steel levers controlled by the operator's foot**. This foot-operated arrangement provides quick and easy wringing while reducing the need for the operator to bend during use.

For improved mobility, the Sizzly is equipped with **four 50mm pivoting wheels**, helping improve manoeuvrability and minimise the need to lift the bucket. The system is also **colour coded** and available in Blue, Green, Red and Yellow, making it suitable for integration into colour-coded professional cleaning programmes.

Product Features

- **Compact professional 15L mopping system**
- **Double plastic bucket** with fixed divider
- Separates **rinsing water from detergent solution**
- Features **two roller squeezers**
- One roller is fixed while the second is operated using **steel foot levers**
- **Foot-operated wringing system** reduces the need to bend during use
- Double roller system provides **quick and easy wringing**
- Allows the cleaning tool to be **rinsed before dipping into the chemical solution**
- Equipped with **four 50mm pivoting wheels**
- Pivoting wheels provide improved **manoeuvrability**
- Designed to minimise the need to **lift the**

bucket

- Available in **Blue, Green, Red and Yellow**

Product Benefits

- **Double bucket design keeps rinsing water separate from the detergent solution during professional floor cleaning**
- **Foot-operated double roller squeezing provides quick wringing without requiring the operator to repeatedly bend down**
- **Four pivoting wheels provide improved manoeuvrability while reducing the need to lift and carry the bucket**
- **The cleaning tool can be rinsed before being returned to the chemical solution**
- **Compact design is particularly suited to small and medium-sized cleaning areas**
- **Colour options allow the bucket to form part of a colour-coded cleaning system**

Technical Characteristics

- **Product Type:** Professional Double Bucket Mopping System
- **Capacity:** 15L
- **Bucket Construction:** Double Plastic Bucket
- **Divider:** Fixed
- **Water Separation:** Rinsing Water & Detergent Solution
- **Squeezer System:** Double Roller Squeezer
- **Number of Roller Squeezers:** 2
- **Wringer Operation:** Foot Operated
- **Wheels:** 4 Pivoting Wheels
- **Wheel Diameter:** 50mm
- **Recommended Area Size:** Small to Medium Areas
- **Colour Options:** Blue, Green, Red & Yellow
- **Case Quantity:** 1

Applications

The **Squizzy 15L Colour-Coded Double Mop Bucket** is designed for professional wet mopping across **small to medium-sized areas**. Its separated rinse and detergent compartments, **foot-operated double roller squeezing system** and four pivoting wheels make it suitable for routine professional floor cleaning. The manufacturer categorises the product for applications including **catering and kitchens**,

**educational environments and general floor
cleaning.**
