Streamline Nozzle Pencil Jet Kit - Pack of 2

Variant code: 16-NJ3-02

Streamline Nozzle Pencil Jet Kit is a **genuine replacement jet set** designed for use with all Streamline® water-fed pole brushes. Featuring Streamline's convenient **Twist & Lock design**, these precision-engineered pencil jets provide consistent water delivery for effective window cleaning and exterior surface maintenance.

Supplied as a **pack of two**, the pencil jets are easy to install and replace, allowing operators to maintain optimum brush performance with minimal downtime. The Twist & Lock fitting system ensures secure attachment while enabling quick replacement when required, helping keep cleaning equipment operating efficiently.

Designed to provide controlled water flow directly through the brush head, the pencil jets support effective dirt removal, rinsing performance and overall cleaning efficiency. Compatible with all Streamline® brushes, this replacement jet kit is an essential maintenance accessory for professional window cleaners and water-fed pole users.
