

Toucan Eco eSpray 350ml

Variant code: 06-104744

Toucan Eco is a revolutionary new bio-cleaner that means you can stop using 80% of chemical cleaners and disposing of the single use plastic bottles they come in.

The Toucan Eco Worktop model is designed for cleaning in the home and smaller workplaces.

It makes one litre of eco-friendly antibacterial multi-surface cleaner that kills up to 99.999% of germs from just water, salt and electricity.

***For more information please

Simply fill the container with tap water, add salt, stir around seven to eight times then press to activate, which will take around five minutes.

After four or five activations the unit needs a rest of 20 minutes before it can be used again.

The kit includes the one litre activation unit, measuring spoon, mixing rod, spray bottle and some salt to get you started.

The Toucan Eco components of water and salt, when activated, produce a solution which is non-toxic and non-hazardous to people and animals.

Stringent tests undertaken by EU accredited independent laboratories and university research departments have shown it is 99.999% effective against all forms of microorganisms with a very fast contact time and virtually no regrowth.
