Truvox 16" Drive Board - For Orbis 200 Rotary Machine

Variant code: 16-0547140000

Truvox 16" Drive Board is a **professional floor pad holder** designed specifically for use with the **Truvox Orbis 200 rotary floor machine**. Engineered to securely hold floor maintenance pads, this durable accessory enables the machine to perform a wide range of floor care tasks, including scrubbing, spray cleaning, buffing, polishing and floor restoration.

The drive board provides a secure and reliable connection between the rotary machine and floor pad, ensuring consistent pad contact across the floor surface for optimum cleaning and polishing performance. Its robust design allows operators to quickly fit and replace pads, improving efficiency during routine maintenance and specialist floor care applications.

With a **16" working diameter**, the drive board offers excellent floor coverage while maintaining the manoeuvrability required for professional cleaning environments. Constructed from durable materials, it is built to withstand the demands of commercial floor maintenance and deliver long-lasting performance.

As a genuine Truvox accessory, the 16" Drive Board is designed for seamless compatibility with the Orbis 200, helping cleaning professionals maximise the versatility and effectiveness of their rotary floor machine.

Product Features

- **16" drive board / pad holder**
- Designed for the **Truvox Orbis 200 rotary machine**
- Compatible with floor maintenance pads
- Suitable for scrubbing, buffing and polishing applications
- Durable commercial-grade construction
- Genuine Truvox accessory

Product Benefits

- **Provides secure attachment for floor maintenance pads**

Tel: 01626 355177
