Truvox i-Mop Lite - Compact Scrubber Dryer

Variant code: 16-IMOPLITE

Truvox i-mop Lite is an innovative **compact scrubber dryer** designed to deliver powerful floor cleaning performance in a lightweight and highly manoeuvrable package. Combining the flexibility of a traditional mop with the cleaning effectiveness of a professional scrubber dryer, the i-mop Lite enables operators to clean hard floors faster, more effectively and with significantly less effort.

The machine's unique upright design places additional weight directly onto the brushes, maximising scrubbing performance and delivering more cleaning power than many conventional auto scrubbers in its class. Powered by a high-performance lithium battery system, the i-mop Lite provides complete cordless freedom without trailing cables or trip hazards. Its twin high-speed **500rpm brushes** effectively remove dirt and grime while reaching right into edges and corners for a more thorough clean. Lightweight and exceptionally manoeuvrable, the machine can easily be transported between locations and operated comfortably by users of all experience levels.

Designed to save up to **75% of cleaning time** compared to traditional mopping methods, the i-mop Lite offers an efficient solution for organisations looking to improve cleaning productivity while maintaining high standards of hygiene. Its compact size makes it particularly effective in busy environments where accessibility and flexibility are essential.

Product Features

- **Compact scrubber dryer** with lightweight upright design
- High-speed **500rpm brushes** for powerful scrubbing action
- Battery-powered operation with lithium battery technology
- Cleans right to the edges for maximum floor coverage
- Highly manoeuvrable and easy to transport
- Simple ergonomic controls for easy operation

- Designed to save up to **75% of cleaning time**

Product Benefits

- Provides greater cleaning power than traditional mopping methods
- Reduces cleaning time and labour costs
- Eliminates cable-related trip hazards
- Improves access to confined and congested areas
- Enhances floor hygiene through effective scrubbing performance
- Reduces operator fatigue with lightweight ergonomic design
- Delivers professional cleaning results on a wide range of hard floors

Technical Characteristics

- Professional **compact scrubber dryer**
- Battery-powered cordless operation
- **500rpm brush speed**
- Lightweight design comparable to a mop and bucket combination
- Edge-cleaning capability for improved floor coverage
- Designed for hard floor cleaning applications
- Compatible with Truvox batteries, chargers and accessories

Applications

Truvox i-mop Lite is ideal for schools, healthcare facilities, leisure centres, retail environments, hospitality venues, offices and public buildings where fast and efficient floor cleaning is required. Its compact footprint and exceptional manoeuvrability make it particularly suitable for congested spaces, narrow walkways and areas around furniture and fixtures. The machine provides a practical alternative to traditional mopping, helping organisations improve productivity while maintaining cleaner, safer and more hygienic floors.
