

Truvox Replacement Power Cable for VTVE Vacuum

Variant code: 16-8700060000

Truvox Replacement Power Cable is a **genuine replacement 2-core mains cable** designed specifically for **Truvox VTVE vacuum cleaners**. Measuring **12 metres in length**, this heavy-duty power cable restores a safe and reliable mains power connection, ensuring your vacuum cleaner continues to deliver consistent performance in demanding commercial cleaning environments.

Manufactured from durable, high-quality materials, the cable is designed to withstand the rigours of everyday professional use. Its flexible construction resists twisting and wear while providing an extended cleaning radius, allowing operators to clean larger areas with fewer plug changes and improved productivity.

Designed as a direct replacement for the original VTVE power cord, the cable is quick to install and helps restore the electrical integrity of the machine. Replacing a damaged or worn cable helps maintain safe operation, minimise downtime and extend the service life of your Truvox vacuum cleaner.

Ideal for routine maintenance and repairs, this replacement power cable ensures dependable performance and reliable power delivery for commercial cleaning applications.

Product Features

- **Replacement power cable for Truvox VTVE vacuum cleaners**
- **12m cable length**
- 2-core electrical cable
- Heavy-duty, flexible construction
- Durable insulation for commercial use
- Direct replacement component
- Restores reliable mains power connection
