

Ultra High Speed Floor Pad 20" Natural – Box of 5

Variant code: 03-S20UHSN

Ultra High Speed Natural Floor Pads are **premium polishing pads** designed to produce a **high-gloss finish** on protected hard floors when used with ultra high-speed burnishers. Measuring **20 inches** in diameter and supplied in a **box of 5**, these pads are ideal for maintaining and enhancing the appearance of polished floor finishes in demanding commercial environments.

Manufactured from high-quality non-woven fibres, the natural-coloured pads are engineered to deliver exceptional polishing performance while minimising wear on floor finishes. They effectively restore shine and improve floor appearance without aggressive abrasion, making them ideal for routine burnishing and maintenance programmes.

Designed for use with **ultra high-speed floor machines**, these pads provide smooth, consistent contact with the floor surface to maximise gloss levels and maintain a professional finish. Their durable construction ensures long service life, helping reduce replacement frequency and maintenance costs.

Suitable for a wide variety of coated hard floor surfaces, these professional floor pads deliver reliable performance for facilities management, contract cleaning and commercial floor care applications.

Product Features

- **20" ultra high speed floor pad**
- Natural colour for high-gloss polishing
- **Box of 5 pads**
- Premium non-woven fibre construction
- Designed for ultra high-speed burnishing
- Restores and enhances floor shine
- Durable and long-lasting
- Suitable for protected hard floor finishes

Product Benefits

- **Produces a brilliant high-gloss floor finish**
- **Maintains polished floor appearance with minimal abrasion**
- **Extends the life of floor finishes**

- Delivers consistent burnishing performance
- Durable construction reduces replacement frequency
- Ideal for routine commercial floor maintenance

Technical Characteristics

- Product Type: **Ultra High Speed Floor Pad**
- Diameter: **20"**
- Colour: **Natural**
- Quantity: **Box of 5**
- Material: Premium Non-Woven Fibre
- Machine Compatibility: Ultra High-Speed Burnishers
- Application: High-Gloss Floor Polishing
- Surface Compatibility: Protected Hard Floor Finishes

Applications

Ultra High Speed Natural Floor Pads are ideal for **commercial cleaning contractors, facilities management teams, schools, hospitals, retail premises, hotels, airports and public buildings**. Designed for **routine burnishing and polishing of protected hard floor surfaces**, they help maintain exceptional gloss levels while extending the life and appearance of floor finishes.

Property	Value
Material	Virgin polyester, natural bristles, special elastic resin
Area of Use	Hard Floors, Polished Floors, Crystallised Floors, Commercial Buildings, Industrial Facilities.
How to Use	Fit the 20-inch pad to a compatible rotary buffing machine operating at 600 rpm. Use to moderately buff or finish floors after crystallisation. Rinse the pad after use to maintain performance.
Diameter (mm)	20" (508 mm)
Pack Size	Box of 5
