

Ultra Safe Light Vented Goggles – Clear

Variant code: 22-PS66

Ultra Safe Light Vented Safety Goggles provide premium eye protection for a wide range of industrial and workplace applications. Designed with **indirect ventilation** to help reduce lens misting while maintaining protection, these lightweight goggles offer excellent visibility and comfort throughout the working day. The clear polycarbonate lens features advanced **KN-certified anti-scratch and anti-fog coatings**, ensuring long-lasting optical clarity even in demanding environments.

Manufactured with a flexible **PVC frame** and an adjustable elastic headband, the goggles provide a secure and comfortable fit for extended wear. They are designed to fit comfortably over most prescription glasses and offer protection against **liquid splashes, large dust particles, molten metal and hot solids**. The metal-free construction makes them suitable for a variety of industrial environments where lightweight, corrosion-free PPE is preferred.

Certified to **EN 166 1 BT 3 4 9 KN, EN 170 2C-1.2** and **ANSI/ISEA Z87.1+**, the Ultra Safe Light Vented Goggles deliver dependable eye protection for manufacturing, construction, engineering, laboratories and maintenance applications where safety, comfort and clear vision are essential.

Product Features

- Premium vented safety goggles with clear polycarbonate lens
- Indirect ventilation helps reduce lens misting
- KN-certified anti-scratch lens coating
- KN-certified anti-fog lens coating
- Suitable for wearing over most prescription glasses
- Flexible PVC frame for enhanced comfort
- Adjustable elastic headband for a secure fit
- Protects against liquid splashes and large dust particles
- Certified protection against molten metal and hot solids

- 100% metal-free construction
- Individually packed for hygiene and vending applications

Product Benefits

- **Provides reliable eye protection against multiple workplace hazards while maintaining excellent visibility**
- **Advanced anti-fog and anti-scratch coatings help ensure clear vision and extended lens life**
- **Comfortable lightweight design allows prolonged wear, even over prescription spectacles**
- Indirect ventilation reduces fogging without compromising protection
- Adjustable elastic headband provides a secure and personalised fit
- Flexible PVC frame enhances wearer comfort during extended use
- Metal-free construction is suitable for a wide range of industrial environments
- Certified to recognised international eye protection standards

Technical Characteristics

- Product Type: Safety Goggles
- Lens Colour: Clear
- Lens Material: Polycarbonate
- Frame Material: PVC
- Headband: Adjustable Elastic
- Ventilation: Indirect Vented
- Lens Coatings: KN Anti-Scratch & KN Anti-Fog
- Construction: 100% Metal Free
- Suitable Over Prescription Glasses: Yes
- Standards: EN 166 1 BT 3 4 9 KN, EN 170 2C-1.2, ANSI/ISEA Z87.1+

Applications

The **Ultra Safe Light Vented Safety Goggles** are ideal for use in **construction, manufacturing, engineering, fabrication, maintenance, laboratories, automotive workshops, utilities and general industrial environments**. They provide dependable protection against **liquid splashes, airborne dust, molten metal and hot solid particles**, making them suitable for professionals requiring comfortable, certified eye protection throughout the working day.

Property	Value
Colour	Clear
Size	One Size
