Airloop Toilet Bowl Clips - Citrus Mango - 2 x 5 Bags

Variant code: 05-513

Airloop® Toilet Bowl Clip Air Freshener is a professional passive fragrance solution designed to keep toilets and washrooms smelling fresh without the need for batteries, electricity or aerosol sprays. Featuring a refreshing **Citrus Mango fragrance**, it combines fruity mango and citrus notes to create a pleasant and welcoming atmosphere. Its innovative **clip-on design** fits most toilet bowl shapes and sizes, providing a convenient and discreet way to maintain washroom freshness in commercial, public and domestic facilities.

Featuring **Clip and go, clip and throw™ technology**, the flexible air freshener clips securely onto the edge of the toilet bowl and can be removed and replaced in one simple action. Manufactured from **flexible EVA material**, it adapts to different toilet bowl profiles while delivering **up to 30 days of continuous fragrance**. The passive fragrance system gradually releases scent into the surrounding area without mechanical dispensers, liquid refills or pressurised propellants. Its compact design also makes it suitable for **under-sink installations, waste bins and other small spaces** where discreet fragrance delivery is required.

Designed for **quick installation and straightforward maintenance**, the clip requires no tools, adhesives or additional equipment. Its **recyclable, VOC-compliant formulation** provides a practical non-aerosol approach to everyday air freshening. As part of **The Professional Passive Programme™**, it can be coordinated with complementary fragrance products to create a consistent scent experience throughout a facility. Supplied as **2 bags containing 5 Citrus Mango clips each**, providing **10 toilet bowl clips in total**, it offers a convenient supply for multiple toilets or scheduled replacement cycles.

Product Features

- **Citrus Mango fragrance** provides a refreshing fruity and citrus scent
- **Long-lasting fragrance** delivers up to 30 days of freshness per clip
- **Passive fragrance technology** requires
