P-Wave Eco Air Solid Air Freshener Refill - Pack of 6 - Mango

Variant code: 05-105238M

P-Wave Eco Air Solid Air Freshener Refill is designed to release a sweet and uplifting **Mango fragrance** throughout indoor spaces. Ideal for washrooms, offices, reception areas and shared facilities, this passive air freshener helps reduce the perception of unpleasant odours while creating a fresh, welcoming environment for staff, customers and visitors.

Featuring advanced **dry fragrance technology**, the solid refill gradually releases fragrance through natural air movement without the need for **batteries, electricity, aerosols, propellants or solvents**. Each refill provides **up to 30 days of fragrance** with coverage of up to **16m²**, depending on environmental conditions. Manufactured from **recyclable EVA material containing up to 15% recycled content**, the non-liquid design avoids spills, leaks and sticky residues while providing an alternative to traditional aerosol air fresheners.

Designed for use with the **P-Wave Eco Air Freshener Cabinet**, the refill can also be used independently or with other compatible holders. Its open-air design maximises surface exposure, allowing fragrance to disperse efficiently when positioned in an area with good airflow. Simply remove the refill from its packaging and place it inside a compatible cabinet or suitable location. Supplied in a **pack of 6 Mango air freshener refills**, it provides a convenient supply for multiple locations or regular replacement.

Product Features

- **Tropical Mango fragrance** delivers a sweet, fruity and refreshing scent
- **Long-lasting fragrance** provides continuous freshness for up to 30 days
- **Fragrance coverage up to 16m²** per refill
- **Solid dry fragrance technology** eliminates the need for liquid fragrance
