P-Wave Slant6 Deodorant Urinal Screen Pack of 10 - Mango

Variant code: 05-105255M

Slant6 Deodorant Urinal Screen is a long-lasting fragranced urinal screen designed to improve washroom freshness, reduce splashing and support everyday urinal hygiene. Featuring a vibrant **Mango fragrance**, it releases a sweet, fruity and tropical scent that helps create a pleasant atmosphere in commercial and public washrooms. Its innovative **angled bristle design** helps minimise urine splashback, while the flexible screen sits securely inside the urinal to help prevent debris from entering the waste outlet.

Engineered with **double-sided anti-splash technology**, the screen features specially positioned slanted bristles that help direct liquid into the urinal, reducing splashes onto surrounding floors, walls and clothing. The design works regardless of which side faces upwards, making installation straightforward. Each screen provides **at least 30 days of fragrance** and incorporates **beneficial bacteria for deodorising**, helping manage unpleasant washroom odours. Its compact, flexible construction is suitable for a wide range of urinals, including **waterless urinals and urinals fitted with sleeves or domes**.

Manufactured from **recyclable EVA material containing up to 15% recycled content**, the screen combines durability with practical environmental considerations. It incorporates an **EcoPure additive** designed to accelerate biodegradation under suitable landfill conditions, although the rate depends on the disposal environment. Installation requires no tools, chemicals or additional equipment: simply position the screen inside the urinal and replace it as part of the regular washroom maintenance schedule. Supplied in a **pack of 10 Mango urinal screens**, it provides a convenient solution for maintaining multiple urinals in busy commercial facilities.

Product Features

- **Tropical Mango fragrance** provides a sweet, fruity and refreshing washroom scent
