

WE 4 Gang 10M 13A Cassette Extension Reel

Variant code: 26-JEGJA079W10

The **WE 4 Gang 13A Cassette Extension Reel** provides a practical solution for extending access to mains power where fixed sockets are not conveniently positioned. Featuring **four sockets** and a **10 metre cable**, it allows multiple compatible electrical devices to be connected from a single extension reel.

The compact **cassette reel format** provides a convenient way to manage and store the extension cable between uses. With a **10m cable length**, the reel provides additional reach for electrical equipment across a variety of indoor working environments.

Featuring a **4 gang socket configuration** and a **13A rating**, the extension reel is a versatile power distribution accessory for workplaces and other environments where temporary access to additional electrical sockets is required.

Product Features

- **4 gang cassette extension reel**
- Provides **four power sockets**
- Features a **10 metre cable**
- **13A rated**
- Compact **cassette reel design**
- Provides extended access to mains power from an existing socket
- Allows multiple compatible electrical devices to be connected
- Designed for convenient **cable storage and management**

Product Benefits

- **Four sockets provide additional connection points for multiple compatible electrical devices**
- **10m cable provides useful additional reach where fixed mains sockets are not conveniently located**
- **Cassette reel format helps keep the extension cable organised when stored or transported**
- Combines **power distribution and cable**

- **storage** within one compact unit
- Suitable for a variety of general **workplace and indoor power requirements**
- **13A rating** provides the specified electrical capacity for the extension reel

Technical Characteristics

- **Product Type:** Cassette Extension Reel
- **Socket Configuration:** 4 Gang
- **Number of Sockets:** 4
- **Cable Length:** 10m
- **Current Rating:** 13A
- **Format:** Cassette Reel
- **Application:** Mains Power Extension & Distribution

Applications

The **WE 4 Gang 13A Cassette Extension Reel – 10m** is suitable for general applications requiring **additional mains power sockets and extended cable reach**. Its **four-socket configuration** allows multiple compatible electrical devices to be connected, while the **10m cable** provides additional flexibility when equipment needs to be positioned away from an existing mains socket.
