Window Cleaning Pole Tubing - 50m

Variant code: 16-5500

Window Cleaning Pole Tubing is a **premium reinforced pole hose** designed for professional **water-fed window cleaning systems**. Supplied in a **50-metre roll**, this lightweight, highly flexible tubing provides reliable water delivery through telescopic window cleaning poles while offering exceptional durability for everyday commercial use.

Manufactured from high-quality reinforced materials, the Lite-5® tubing is engineered to remain **super lightweight and highly flexible**, reducing operator fatigue and improving manoeuvrability during extended cleaning tasks. Its **high-visibility design** makes the hose easy to identify on-site, helping reduce trip hazards and improving safety in busy working environments.

Designed with excellent **abrasion and kink resistance**, the tubing maintains a consistent water flow even during demanding applications. With a **maximum working pressure of 14 Bar at 23°C** and an **operating temperature range of -15°C to +60°C**, it is suitable for year-round professional window cleaning in a wide range of environmental conditions.

Ideal for new installations or replacing worn tubing, Streamline® Lite-5® Pole Tubing delivers dependable performance and long service life for professional window cleaners.

Product Features

- **50m roll of Streamline® Lite-5® pole tubing**
- High-quality reinforced construction
- Super lightweight and highly flexible
- High-visibility hose for improved safety
- Excellent abrasion resistance
- Kink-resistant design
- Maximum working pressure: **14 Bar (at 23°C)**
- Operating temperature: **-15°C to +60°C**
- Suitable for water-fed window cleaning poles

Product Benefits

Tel: 01626 355177
Email: info@aukhygiene.com

- **Provides reliable water flow for professional window cleaning**
- **Lightweight design reduces operator fatigue**
- **Excellent flexibility improves ease of use**
- High-visibility colour helps improve workplace safety
- Durable construction withstands everyday commercial use
- Resists abrasion and kinking for longer service life
- Suitable for year-round operation in varying weather conditions

Technical Characteristics

- **Product Type:** Pole Tubing
- **Brand:** Streamline®
- **Range:** Lite-5®
- **Length:** 50m
- **Construction:** Reinforced Flexible Hose
- **Working Pressure:** 14 Bar (at 23°C)
- **Operating Temperature:** -15°C to +60°C
- **Features:** High Visibility, Abrasion Resistant, Kink Resistant
- **Application:** Water-Fed Window Cleaning Systems

Applications

Window Cleaning Pole Tubing is ideal for **professional window cleaners, facilities management companies, cleaning contractors and building maintenance teams** using **water-fed pole systems**. Suitable for **commercial and residential window cleaning**, solar panel cleaning and other pure water cleaning applications, it delivers reliable water flow, outstanding flexibility and long-lasting durability in demanding working environments.

Property	Value
Length	50m
Working Pressure	14 Bar (at 23°C)
