

## Zaco X1000 Commercial Robotic Vacuum Cleaner

Variant code: 502011

### ZACO X1000 Commercial Robotic Vacuum Cleaner: Powerful & Efficient Cleaning for Large Spaces

Maximise cleanliness with the ZACO X1000 commercial robotic vacuum. 1000m<sup>2</sup> coverage, 20,000Pa suction, advanced AI mapping. Ideal for offices, hotels, healthcare & more. Learn more!

### Elevate Your Commercial Cleaning with the ZACO X1000 Cobotic Vacuum

The **ZACO X1000 commercial robotic vacuum cleaner** is revolutionising professional cleaning, offering a seamless and efficient solution for large commercial spaces. Designed to meet the demanding needs of businesses, the X1000 provides exceptional cleaning performance, freeing up valuable employee time and optimising operational efficiency.

#### Unmatched Cleaning Power and Coverage:

- **Extensive Area Coverage:** Clean up to 1000m<sup>2</sup> per cycle, making it perfect for expansive offices, hotels, restaurants, and public buildings.
- **Ultra-Powerful Suction:** Boasting an impressive 20,000Pa suction power, the X1000 effortlessly removes dust, debris, and allergens.
- **Efficient 2-Stage Cyclone System:** Separates dust and dirt effectively, ensuring optimal cleaning performance.
- **HEPA13 Filtration:** Captures 99.95% of airborne particles, promoting a healthier environment.

#### Advanced Navigation and Intelligent Mapping:

- **LDS & AI-Powered Mapping:** Utilises advanced LiDAR, dual stereo cameras, ultrasonic, ToF sensors, and cross-line lasers for precise mapping and navigation.
- **Intelligent Obstacle Detection:** State-of-the-art sensors ensure the X1000 avoids obstacles and navigates complex environments.

- **Independent Mapping:** The X1000 autonomously creates maps, allowing for immediate and efficient cleaning.

#### **User-Friendly and Reliable:**

- **Plug-and-Play Setup:** Easy setup and operation in both online and offline modes.
- **Intuitive Control:** Manage the X1000 via a 5-inch touchscreen or the convenient mobile app.
- **PIN-Protected Interface:** Secure access with a PIN lock.
- **Long-Term Software Support:** Guaranteed software support for at least 5 years.
- **Quiet Operation:** Operates at a low 62 dB noise level.
- **Large 3L Dust Tank:** Reduces the frequency of emptying.
- **Edge Climbing:** Can navigate over edges up to 25mm.

#### **Ideal for a Variety of Commercial Settings:**

- Offices
- Restaurants & Hotels
- Healthcare Facilities
- Public Buildings & Schools

#### **Key Features:**

- 1000m<sup>2</sup> Cleaning Area
- 20,000Pa Suction Power
- LDS, Dual Stereo Cameras, Ultrasonic, ToF Sensors, Cross Line Laser Navigation
- HEPA13 Filter
- 3L Dust Tank
- 62 dB Noise Level
- 25mm Edge Climbing.
- App and Touchscreen control
