# Pacvac 32mm Replacement Antistatic Hose with Handpiece 1.2m - For Superpro Machines

**Variant code: 16-HOA014**

**Pacvac Replacement Antistatic Hose with Handpiece** is a **genuine replacement vacuum hose assembly** designed specifically for **Pacvac Superpro backpack vacuum cleaners**. Engineered to provide reliable airflow, flexibility and durability, this hose helps maintain optimum vacuum performance while ensuring comfortable and efficient cleaning in commercial environments.

Featuring a **32mm connection** and integrated antistatic handpiece, the hose is designed to minimise static build-up during operation, reducing dust attraction and improving user comfort. Its flexible construction allows operators to move freely while cleaning around furniture, fixtures and hard-to-reach areas, making it ideal for professional cleaning applications.

The secure screw-fit connection ensures a firm attachment to the vacuum, helping to maintain consistent suction and airflow performance throughout operation. Manufactured from durable materials, the hose is designed to withstand the demands of daily commercial cleaning while delivering long-lasting reliability.

As a genuine Pacvac approved spare part, this replacement hose provides perfect compatibility with Superpro machines and is ideal for restoring performance when replacing worn, damaged or ageing hose assemblies.

## Product Features

- **Genuine Pacvac replacement hose assembly**
- Designed for **Pacvac Superpro backpack vacuums**
- **32mm connection**
- Integrated antistatic handpiece
- Secure screw-fit hose connection
- Flexible and lightweight design
- Durable commercial-grade construction
