Pacvac Replacement Hepa Cone Filter - For Superpro

Variant code: 16-FIL001

Pacvac HEPA Pre-Motor Cone Filter is a **genuine replacement filtration component** designed for **Pacvac Superpro backpack vacuum cleaners**. Engineered to provide enhanced dust filtration and motor protection, this high-performance filter helps maintain optimum vacuum efficiency while supporting cleaner indoor air quality in professional cleaning environments.

Suitable for both **mains-powered and battery-powered Superpro machines**, the HEPA pre-motor filter captures fine dust particles before they reach the motor assembly. This additional layer of filtration helps protect internal components, maintain consistent airflow and extend the operational life of the vacuum cleaner.

The filter features a practical **quarter-turn locking mechanism**, allowing quick installation and removal without tools. This simple design makes routine maintenance easy and helps minimise downtime during servicing and filter replacement.

Manufactured to Pacvac's exact specifications, the 196mm HEPA Pre-Motor Cone Filter ensures reliable performance, perfect compatibility and effective filtration for demanding commercial cleaning applications.

Product Features

- **Genuine Pacvac HEPA pre-motor cone filter**
- Suitable for **Superpro mains-powered and battery-powered vacuums**
- **196mm filter size**
- High-efficiency HEPA filtration
- Protects vacuum motor from fine dust particles
- Quick **quarter-turn locking system**
- Easy installation and removal
- Durable reusable design

Product Benefits

- **Improves filtration performance and air quality**
- **Protects motor components from dust ingress**

- **Helps maintain optimum suction and airflow**
- Extends vacuum cleaner lifespan
- Quick and simple filter replacement
- Genuine compatibility ensures reliable operation

Technical Characteristics

- Product Type: **HEPA Pre-Motor Cone Filter**
- Diameter: **196mm**
- Filtration Type: **HEPA**
- Compatibility:
  - Pacvac Superpro Battery Models
  - Pacvac Superpro Mains Powered Models
- Installation: Quarter-Turn Locking System
- Reusable: Yes
- Genuine Pacvac accessory

Applications

Pacvac HEPA Pre-Motor Cone Filter is ideal for **commercial cleaning contractors, healthcare facilities, schools, offices, hospitality venues, retail environments and facilities management teams** using Pacvac Superpro backpack vacuum cleaners. Suitable for routine maintenance and filter replacement programmes, it helps maintain high filtration standards, protect vacuum components and ensure consistent cleaning performance in demanding professional environments.

Property	Value
Product Type	Pre-Motor Vacuum Filter
Filter Diameter (mm)	196
Filter Design	Cone Filter
Filtration Type	Pre-Motor Filtration
Reusable	Yes
