Pacvac Superpro 700 240V - Mains Powered Backpack Complete

Variant code: 16-PV700M

Pacvac Superpro 700 240V Backpack Vacuum Cleaner is a lightweight, mains-powered commercial backpack vacuum engineered to deliver exceptional cleaning speed, powerful suction and outstanding operator comfort. Designed for professional cleaning environments, the Superpro 700 combines a durable ergonomic backpack design with a high-performance **1000W two-stage flow-through motor**, providing fast, efficient cleaning across large commercial facilities. Supplied as a complete kit, it includes an **18m power cable**, hose, wand, dusting brush, upholstery brush and all-purpose floor tool for maximum versatility.

Weighing just **5.2kg** (excluding the power cord assembly and hose), the Superpro 700 is easy to carry throughout extended cleaning shifts while delivering powerful suction of up to **31.8 litres per second**. Its advanced **4-stage HEPA-rated Hypercone™ filtration system** captures fine dust and airborne particles while maintaining excellent airflow for consistent cleaning performance. The generous **5-litre dust capacity** reduces interruptions for emptying, while the replaceable 18m mains cable provides excellent working reach and can be easily replaced without returning the machine for repair.

Built to Pacvac's renowned commercial standards, the Superpro 700 is designed for durability, productivity and long service life. Backed by a **2-year warranty on the body and motor**, it offers professional cleaners a reliable backpack vacuum capable of delivering outstanding cleaning results across a wide variety of commercial applications.

Product Features

- Lightweight commercial backpack vacuum cleaner weighing only 5.2kg (excluding power cord assembly and hose)
- High-performance 1000W two-stage flow-through motor
- Powerful suction of up to 31.8 litres per second
