Pacvac Turbo Head Floor Tool - 32mm Connection - 280mm Wide

Variant code: 16-FLT007

Pacvac Turbo Head Floor Tool is a **high-performance carpet cleaning attachment** designed to enhance dirt removal and improve vacuuming results on carpeted surfaces. Featuring a lightweight, non-powered design, this genuine Pacvac floor tool uses the vacuum cleaner's airflow and suction power to drive an internal rotating brush, delivering deeper cleaning performance without the need for an external power source.

As the vacuum operates, the turbo-driven brush agitates carpet fibres to loosen embedded dirt, dust, hair and debris, helping to achieve superior pickup compared to standard floor tools. This mechanical agitation makes the tool particularly effective for maintaining carpets in high-traffic commercial and residential environments.

Designed with a **32mm connection** and a **280mm cleaning width**, the Turbo Head Floor Tool provides excellent coverage while remaining easy to manoeuvre around furniture and obstacles. Its lightweight construction helps reduce operator fatigue while maintaining efficient cleaning performance.

As a genuine Pacvac approved spare part, this accessory is manufactured for reliable compatibility and durability, making it an ideal upgrade or replacement tool for improving carpet cleaning results.

Product Features

- **Genuine Pacvac turbo head floor tool**
- Non-powered turbo brush design
- Utilises vacuum suction and airflow to rotate brush
- Agitates carpet fibres for deeper cleaning
- **32mm connection fitting**
- **280mm cleaning width**
- Lightweight and easy to manoeuvre
- Suitable for carpet cleaning applications

Product Benefits

- **Provides deeper carpet cleaning**
