

## Pair of Arthritis Gloves/Compression Gloves – Medium

**Variant code: 22-887M**

Developed by doctors: while other compression gloves are sized inaccurately, breakdown quickly, and made by low-cost manufacturers, our gloves are developed by medical doctors with first-hand experience in managing pain, stiffness, and swelling associated with joint disease (osteo/rheumatoid) and other hand conditions. Ultimately, this means better relief for your hands and fingers.
