Polishing Floor Pad - Tan - 20"

Variant code: 03-S20T

The **Tan Polishing Floor Pads** are professional floor maintenance pads designed for **light cleaning, dry polishing and routine floor care**. Their tan polishing grade provides a gentle cleaning action for maintaining the appearance of suitable hard floors without the aggressive abrasion associated with heavy-duty scrubbing or stripping pads. Available in **11 sizes ranging from 8" to 21"**, these pads offer a practical solution for professional floor cleaning and maintenance.

Designed for use with **compatible rotary floor cleaning machines operating at speeds up to 600 RPM**, the tan pads are suitable for **dry use** when light cleaning and floor maintenance are required. Their flexible construction allows the pads to follow slightly uneven floor surfaces, helping maintain effective contact during operation. The **double-sided design** allows both sides to be used without loss of efficiency, helping maximise the useful life of each pad.

The **Tan Polishing Floor Pads** feature a manufacturer's standard design with an **85mm push-out centre hole** to help prevent overheating during operation. After use, the pads can be brushed and rinsed with clean water before being hung to dry, helping maintain their performance for repeated applications. **Supplied individually**, they are suitable for professional cleaning contractors, facilities management teams and commercial floor maintenance programmes.

Product Features

- **Tan polishing floor pads** for light cleaning and routine floor maintenance
- Available in **11 sizes from 8" to 21"**
- Designed for **dry polishing and light cleaning**
- Suitable for **maintaining the appearance of different floor types**
- Compatible with suitable **rotary floor machines operating up to 600 RPM**
- **Double-sided construction** allows both sides of the pad to be used
- **Flexible pad design** helps maintain contact with uneven floor surfaces
- Manufacturer's standard design incorporates an **85mm push-out centre hole** to help prevent overheating

- **Rinseable after use** for convenient cleaning and maintenance
- **Tan colour coding** allows easy identification of the polishing grade
- Suitable for **regular commercial floor maintenance**
- **Supplied individually**

Product Benefits

- **Gentle polishing action** supports light cleaning and regular maintenance of suitable floor surfaces without aggressive stripping
- **Dry-use capability** provides a convenient solution for routine floor polishing and appearance maintenance
- **Double-sided construction** allows both sides of each pad to be used, helping extend its working life and maximise efficiency
- **Wide selection of diameters** provides options for different compatible floor cleaning machines
- **Flexible pad construction** helps maintain consistent contact across slightly uneven floor surfaces
- Suitable for use with appropriate standard-speed rotary floor machines
- **Push-out centre design** helps reduce overheating during operation
- **Rinseable construction** allows accumulated dirt and polishing residue to be removed after use
- **Tan colour coding** simplifies identification and selection of the polishing grade
- Suitable for **professional cleaning and floor maintenance programmes**

Technical Characteristics

- **Product Type:** Polishing Floor Pad
- **Pad Grade:** Light Cleaning and Polishing
- **Colour:** Tan
- **Available Diameters:** 8", 10", 11", 12", 13", 14", 15", 17", 18", 20" and 21"
- **Minimum Diameter:** 8" (203.2mm)
- **Maximum Diameter:** 21" (533.4mm)
- **Machine Compatibility:** Compatible Rotary Floor Cleaning Machines
- **Maximum Operating Speed:** 600 RPM
- **Cleaning Method:** Dry Use
- **Primary Application:** Light Floor Cleaning and Polishing
- **Additional Application:** Routine Floor
