Polishing Floor Pad - White - 8"

Variant code: 03-S08W

The **White Polishing Floor Pads** are professional floor maintenance pads designed for **dry polishing, buffing and restoring floor shine**. Their fine, non-aggressive polishing action makes them suitable for maintaining the appearance of clean, finished hard floors without the intensive abrasion associated with scrubbing or stripping pads. Available in **13 sizes ranging from 8" to 21"**, these pads provide a practical solution for regular commercial floor care and polishing.

Designed for use with **compatible rotary floor polishing machines**, the white pads are ideal for **dry buffing and final polishing** where a smooth, glossy finish is required. Their gentle polishing action helps enhance the appearance of suitable floor finishes while minimising unnecessary abrasion. The pads can be used as part of a regular maintenance programme or as a final polishing stage following appropriate floor cleaning and treatment.

The **White Polishing Floor Pads** are suitable for professional cleaning contractors, facilities management teams and commercial floor maintenance operations. Their range of diameters allows operators to select the appropriate size for different floor polishing machines. The pads are designed for **repeated polishing applications**, with appropriate cleaning and maintenance helping preserve their effectiveness during regular use.

Product Features

- **White polishing floor pads** for professional floor maintenance
- Available in **13 sizes from 8" to 21"**
- Designed for **dry polishing and buffing**
- **Fine, non-aggressive polishing action** for suitable finished hard floors
- Helps **restore and maintain floor shine**
- Suitable for **final polishing after floor cleaning or maintenance**
- Designed for use with **compatible rotary floor polishing machines**
- Ideal for **routine maintenance of clean,**

polished floor surfaces
- **White colour coding** helps identify the polishing grade
- Suitable for **commercial and professional floor care**
- Available in multiple diameters to suit different equipment requirements

Product Benefits

- **Gentle polishing action helps restore and maintain the shine of suitable finished hard floors without aggressive stripping**
- **Dry buffing capability provides a practical solution for maintaining floor appearance during routine cleaning programmes**
- **Wide selection of 13 diameters allows operators to choose the appropriate pad size for compatible floor polishing equipment**
- **Fine polishing grade** helps improve the appearance of clean floor surfaces
- **Non-aggressive action** makes the pads suitable for regular polishing where intensive scrubbing is unnecessary
- **Final polishing suitability** supports the finishing stage of professional floor maintenance
- **Dry-use capability** reduces the need for additional moisture during suitable polishing applications
- **White colour coding** simplifies pad selection and identification
- Supports **consistent floor presentation** in commercial and public environments
- Suitable for **professional cleaning and facilities maintenance programmes**

Technical Characteristics

- **Product Type:** Polishing Floor Pad
- **Pad Grade:** Fine Polishing
- **Colour:** White
- **Available Diameters:** 8", 10", 11", 12", 13", 14", 15", 16", 17", 18", 19", 20" and 21"
- **Minimum Diameter:** 8" (203.2mm)
- **Maximum Diameter:** 21" (533.4mm)
- **Machine Compatibility:** Compatible Rotary Floor Polishing Machines
- **Cleaning Method:** Dry Polishing and Buffing
- **Primary Application:** Floor Polishing
- **Additional Applications:** Dry Buffing, Final Polishing and Floor Shine

Maintenance
- **Suitable Floor Condition:** Clean, Finished Hard Floors
- **Polishing Action:** Fine, Non-Aggressive
- **Available Size Options:** 13

Applications

The **White Polishing Floor Pads** are designed for **dry polishing, buffing and floor shine maintenance** in commercial and public environments, including **offices, schools, hotels, hospitals, shopping centres, retail premises and public buildings**. They are particularly suitable for maintaining the appearance of **clean, finished hard floors** where a smooth and polished surface is required. Their fine polishing action makes them useful for regular floor maintenance and final buffing following appropriate cleaning procedures. Available in **13 sizes from 8" to 21"**, the pads can be selected to suit appropriately sized rotary floor polishing machines. For best results, ensure the floor is clean and free from loose debris before polishing, follow the flooring manufacturer's recommendations and use equipment suitable for the selected pad size.
