Heavy Duty Trolley Pressure Sprayer inc Foaming Nozzle (Viton Seals) - 12L

Variant code: 14-612

A heavy-duty 12-litre trolley-mounted pressure sprayer designed for efficient application of foaming chemicals across large areas. The foaming action improves adhesion to vertical surfaces, increasing contact time for more effective cleaning before scrubbing or rinsing.

Ideal for washroom deep cleaning, this sprayer allows fast, even application of chemicals, reducing manual effort and improving cleaning consistency.

Engineered for durability, it features stainless steel springs and FPM Viton seals for reliable, long-lasting performance, even when used with aggressive detergents.

Key Features and Benefits

- 12L trolley-mounted pressure sprayer with foaming lance
- Foam spray improves chemical adhesion on vertical surfaces
- Suitable for large-area washroom and deep-cleaning applications
- Compatible with acidic and alkaline detergents, including extreme pH values
- Three interchangeable nozzles to adjust foam density and intensity
- Heavy-duty, reusable and economical design
- 180cm heat- and frost-resistant hose for extended reach
- Stainless steel springs and FPM Viton seals for long service life
- Ergonomic handle and easy-to-manoeuvre trolley for comfortable transport
