

Pro-Mist Microfibre Antibacterial Mop Kit

Variant code: 15-104281

The **Pro-Mist Microfibre Antibacterial Spray Mop Kit** is an innovative flat mop system designed for **effective, rapid-response floor cleaning** without the need for a separate bucket or constant wringing. The system combines an ergonomic Pro-Mist spray handle with a **Uniko break-frame** and a washable antibacterial microfibre mop.

The Pro-Mist handle incorporates a removable bottle with a capacity of up to **450ml**. Simply fill the bottle with water and/or cleaning agent and use the integrated trigger to deliver a **fine mist directly onto the cleaning surface**. This allows floors to be cleaned and dried quickly while the ergonomically rotating cap at the top of the handle assists with the recommended figure-of-eight mopping motion.

The kit includes a **blue washable Nano-Ag antibacterial microfibre mop**, which uses silver technology to help prevent bacterial growth. The **Uniko break-frame** also incorporates a built-in release system designed to help avoid user contact with the soiled mop. Replacement mop heads can be attached by releasing the break-frame, inserting the mop pockets and locking the frame back into position.

Product Features

- **Complete Pro-Mist microfibre antibacterial spray mop kit**
- Includes **Pro-Mist spray handle, Uniko break-frame and blue washable antibacterial microfibre mop**
- Removable bottle holds up to **450ml of liquid**
- Integrated trigger delivers a **fine mist directly onto the cleaning surface**
- Designed for floor cleaning without the need for **buckets or constant wringing**
- **Nano-Ag silver microfibre mop** helps prevent bacterial growth
- Washable **microfibre mop**
- Built-in break-frame release system helps reduce **contact with the soiled mop**

- Ergonomically rotating cap assists with **figure-of-eight mopping**
- Compatible with the manufacturer's range of **microfibre flat mops**
- Specified as **highly absorbent** and **long lasting**

Product Benefits

- **Integrated spray system** eliminates the need to carry a separate bucket during routine floor cleaning
- **Antibacterial Nano-Ag microfibre mop** helps prevent bacterial growth within the mop
- **Built-in break-frame release system** helps minimise user contact with the soiled mop during changing
- Fine mist application helps support **quick cleaning and drying of floors**
- **450ml removable bottle** can be filled with water and/or a suitable cleaning agent
- Washable microfibre mop provides a **reusable cleaning solution**
- Replacement mop heads can be **quickly attached to the Uniko break-frame**
- Ergonomic design supports practical **rapid-response floor cleaning**

Technical Characteristics
