

Prochem 0.9m Prime and Drain Hose with Male Brass Fitting

Variant code: 16-PR250

The **Prochem Prime & Drain Hose** is a dedicated **0.9m (3ft) solution hose** designed to make priming and draining compatible professional carpet cleaning machines straightforward. It provides a convenient connection for working with the machine's **solution tank** during routine operation and maintenance.

Fitted with a **male quick connect**, the hose can be connected to compatible equipment when the solution system needs to be primed or the solution tank drained. Its purpose-designed configuration makes it a useful accessory for operators maintaining compatible **Galaxy, Steempro and Steemeasy machines**.

Compact and easy to store alongside other machine accessories, the **0.9m solution hose** provides the necessary reach without unnecessary excess hose. It is a practical replacement or additional accessory for professional carpet cleaning operations using compatible Prochem extraction equipment.

Product Features

- **0.9m (3ft) solution hose**
- Designed for **priming and draining the machine solution tank**
- Fitted with a **male quick connect**
- Compatible with **Galaxy machines**
- Compatible with **Steempro machines**
- Compatible with **Steemeasy machines**
- Purpose-designed accessory for compatible **professional extraction cleaning equipment**
- Compact hose length for convenient handling and storage

Product Benefits

- **Provides a convenient way to prime compatible machine solution systems before operation**
- **Allows the solution tank to be drained**

- using a dedicated hose connection
- **Male quick connect provides straightforward connection to compatible equipment**
- Useful as a **replacement or additional machine accessory** for professional cleaning operations
- Compatible with several established extraction machine ranges, including **Galaxy, Steempro and Steemeasy**
- Compact **0.9m length** makes the hose convenient to handle, transport and store with machine accessories

Technical Characteristics

- **Product Type:** Prime & Drain Solution Hose
- **Hose Length:** 0.9m (3ft)
- **Connection:** Male Quick Connect
- **Function:** Priming & Draining Machine Solution Tank
- **Compatible Machine Range:** Galaxy
- **Compatible Machine Range:** Steempro
- **Compatible Machine Range:** Steemeasy
- **Product Weight:** 0.5kg
- **Product Category:** Carpet Extraction Machine Accessory

Applications

The **Prochem Prime & Drain Hose** is intended for professional carpet and upholstery cleaning operations using compatible **Galaxy, Steempro and Steemeasy extraction machines**. The **0.9m solution hose** and male quick connection provide a practical means of **priming the machine and draining the solution tank**, making it a useful accessory for routine machine operation, preparation and maintenance.
