Prochem 30cm Teflon Wand Glide - Low Friction Carpet Cleaning Wand Attachment

Variant code: 16-AC1012

Prochem 30cm Teflon Wand Glide is a **professional low-friction glide attachment** designed to fit compatible carpet extraction wands, improving manoeuvrability and enhancing carpet cleaning efficiency. Manufactured from durable Teflon material, this genuine Prochem accessory helps the extraction wand glide smoothly across carpet surfaces while maintaining effective water recovery and cleaning performance.

Designed to reduce friction between the carpet and extraction wand, the glide significantly decreases operator effort, making long cleaning sessions more comfortable and less physically demanding. The smoother movement also improves productivity by allowing faster and more consistent cleaning passes across carpeted areas.

The precision-engineered design helps maintain strong airflow and efficient water extraction while reducing drag on carpet fibres. This can contribute to improved drying times, enhanced cleaning results and a more comfortable user experience during professional carpet cleaning operations.

As a genuine Prochem accessory, the 30cm Teflon Wand Glide provides reliable compatibility, durable construction and long-lasting performance for commercial carpet cleaning applications.

Product Features

- **Genuine Prochem Teflon wand glide**
- Designed for compatible carpet extraction wands
- **30cm cleaning width**
- Low-friction Teflon construction
- Improves wand manoeuvrability
- Helps maintain efficient airflow and extraction
- Durable and hard-wearing design
- Easy to fit and remove

Product Benefits

Tel: 01626 355177
Email: info@aukhygiene.com

- **Reduces operator fatigue during carpet cleaning**
- **Allows smoother wand movement across carpets**
- **Improves cleaning productivity and efficiency**
- Helps maintain strong extraction performance
- May contribute to faster carpet drying times
- Protects carpet fibres by reducing drag and friction

Technical Characteristics

- Product Type: **Wand Glide Attachment**
- Material: **Teflon**
- Width: **30cm**
- Compatibility: Compatible Carpet Extraction Wands
- Function: Reduced Friction and Improved Glide Performance
- Application: Professional Carpet Cleaning
- Genuine Prochem accessory

Applications

Prochem 30cm Teflon Wand Glide is ideal for **professional carpet cleaners, contract cleaning companies, facilities management providers, hotels, offices, healthcare facilities, schools and commercial premises**. Suitable for use during **hot water extraction carpet cleaning**, it improves wand handling, reduces physical effort and helps deliver efficient, professional cleaning results across a wide range of carpeted environments.
