Prochem 6" Heavy Duty Stair Tool with Handle - Stainless Steel Extraction Tool

Variant code: 16-PM2503

Prochem 6" Heavy Duty Stair Tool with Handle is a **professional carpet extraction tool** designed specifically for cleaning stairs, edges, corners and other confined carpeted areas. Built for demanding commercial use, this robust tool provides excellent cleaning performance and precise control when tackling areas that are difficult to reach with standard carpet wands.

Featuring a compact **6-inch cleaning head**, the stair tool is ideal for detailed extraction cleaning on staircases, landings, upholstery edges and tight spaces. The narrow cleaning width allows operators to work accurately around corners, risers and restricted-access areas while maintaining effective solution recovery and soil extraction.

Constructed from heavy-duty materials for durability and reliability, the tool is designed to withstand the rigours of professional carpet cleaning environments. The integrated handle provides a comfortable and secure grip, improving manoeuvrability and reducing operator fatigue during extended cleaning tasks.

As a genuine Prochem accessory, the 6" Heavy Duty Stair Tool delivers dependable performance, excellent extraction efficiency and long service life, making it an essential tool for professional carpet and upholstery cleaning operations.

Product Features
