Prochem 6" Stainless Steel Curtain Tool - Professional Fabric Extraction Tool

Variant code: 16-PM2504

Prochem 6" Stainless Steel Curtain Tool is a **specialist fabric extraction tool** designed for the professional cleaning of curtains, drapes, blinds, wall fabrics and delicate upholstered surfaces. Featuring a compact **6-inch cleaning head** and durable stainless steel construction, this tool provides precise cleaning performance while helping to minimise over-wetting of delicate fabrics.

Engineered specifically for vertical fabric cleaning applications, the Curtain Tool delivers controlled solution application and efficient moisture recovery, helping to remove dirt, dust and contaminants while reducing drying times. Its lightweight and manoeuvrable design allows operators to clean curtains and hanging fabrics with greater precision and ease.

Manufactured from high-quality stainless steel, the tool offers exceptional durability and resistance to corrosion, making it suitable for regular professional use. The compact head size allows access to folds, pleats, edges and detailed fabric areas that are difficult to clean with larger extraction tools.

As a genuine Prochem accessory, the 6" Stainless Steel Curtain Tool provides reliable performance and professional results for specialist fabric and curtain cleaning applications.

Product Features

- **Professional curtain and fabric extraction tool**
- Durable stainless steel construction
- Compact **6-inch cleaning head**
- Designed for curtains, drapes and delicate fabrics
- Controlled solution application
- Efficient moisture recovery
- Lightweight and easy to manoeuvre
